

# JTAPIC Program Management Office

The diagram above shows the working relationship across borders with the JTAPIC PMO and the partnership SMEs. With the JTAPIC PMO noted by the MRDC and Futures command logos at the organizing point of the group.

The partnership can be separated into three areas denoted left to right in the boxes of Medical, Materiel, and Operations & Intelligence.

The individual partners are designated by their organizational logos. Starting in the Medical box from the top left and going clockwise there is:

Armed Forces Examiner System, Naval Health Research Center, Joint Trauma System, US Army Aeromedical Research Laboratory

Next in the Materiel box, again from top left and clockwise is:

Program Executive Officer Soldier, Product Manager Infantry Combat Equipment, DevCom Data and Analysis Center

Last in the Operations and Intelligence box starting from top left are:

National Ground and Intelligence Center, Dismounted Incident Analysis Team, Marine Corps Intelligence Activity, Current Operations Analysis Support Team
